Dear Colleagues,

It is my great pleasure to invite you again to share our experience during the **“2nd Surgical Workshop of Complex Uro-Genital Reconstructive Surgery in Adulthood”** which will be held on 11th and 12th September, 2009 at Clinical Centre “Zvezdara”, Belgrade.

The first workshop was held on 7th and 8th November 2008 with 9 complex live surgeries performed in a 2 days with more than 190 participants from 20 countries.

Now we want to continue with the same motto and to present you even more challenging cases and the way of their treatment.

We are keen to keep this workshop interactive so that live surgery is supported by lively discussions.

We will give our best to make your stay in Belgrade very pleasant and useful for your practise.

We look forward to welcoming you.

Sincerely,

Prof Dr Sava Perovic

The background of the page is a faded, light-colored photograph of a landscape. In the center, there is a tall, white, columnar monument topped with a statue of a person. The monument is situated on a grassy hill. In the background, there is a large body of water, likely a lake or a wide river, and a line of trees on the far shore. The overall tone is soft and somewhat ethereal.
